# ABOUT US

**SAN NICOLA GROUP** founded in 2009 with a passion for providing high quality fruit. Is one of the most important production companies in Puglia, South Italy. A company is in its third generation: hundreds of cultivated hectares, hundreds of employees, more than 30 farmers who represented many passionate people in their fields.

# Mission Company

**80% HARVEST  
dedicated  
to the cultivation  
of grapes with  
and without seeds  
and 20%– to  
apricots, cherries,  
peaches and flat  
nectarines**

**We are passionate about what we do.  
We offer best Grapes and Stone Fruits  
from the beginning to the end of the  
season.**

This is possible because we take care of all the phases of cultivation, harvesting, processing and transport of the product to the final customer.

Our packhous is located in the center of the Agricultural Company that allows us always work and handpick from local farms its freshly healthy harvested products, extending their shelf-life.

**We are currently in  
organic conversion**

# CERTIFICATIONS

The main requirements of **GLOBAL GAP** are the controls of the production process and correct company management, company traceability, management of environmental aspects in the company.

**GRASP** establishes a good social management system ensuring buyers greater security and protection of one of the company's most important resources: its people.

**SPRING** program is applicable by producers to implement and strengthen efforts in sustainable water management.

**BRC** provides a framework for managing product safety, integrity, legality, quality and operational controls.

The **IFS** Food Standard is used to control food safety and the quality of processes and products.

# PACKHOUSE EXPANSION GREAT PROJECT 2025-2026

**WE ARE PROUD OF OUR IFS  
CERTIFIED PROCESSING/ COLD  
STORAGE 1000MSQ PACKHOUSE.**

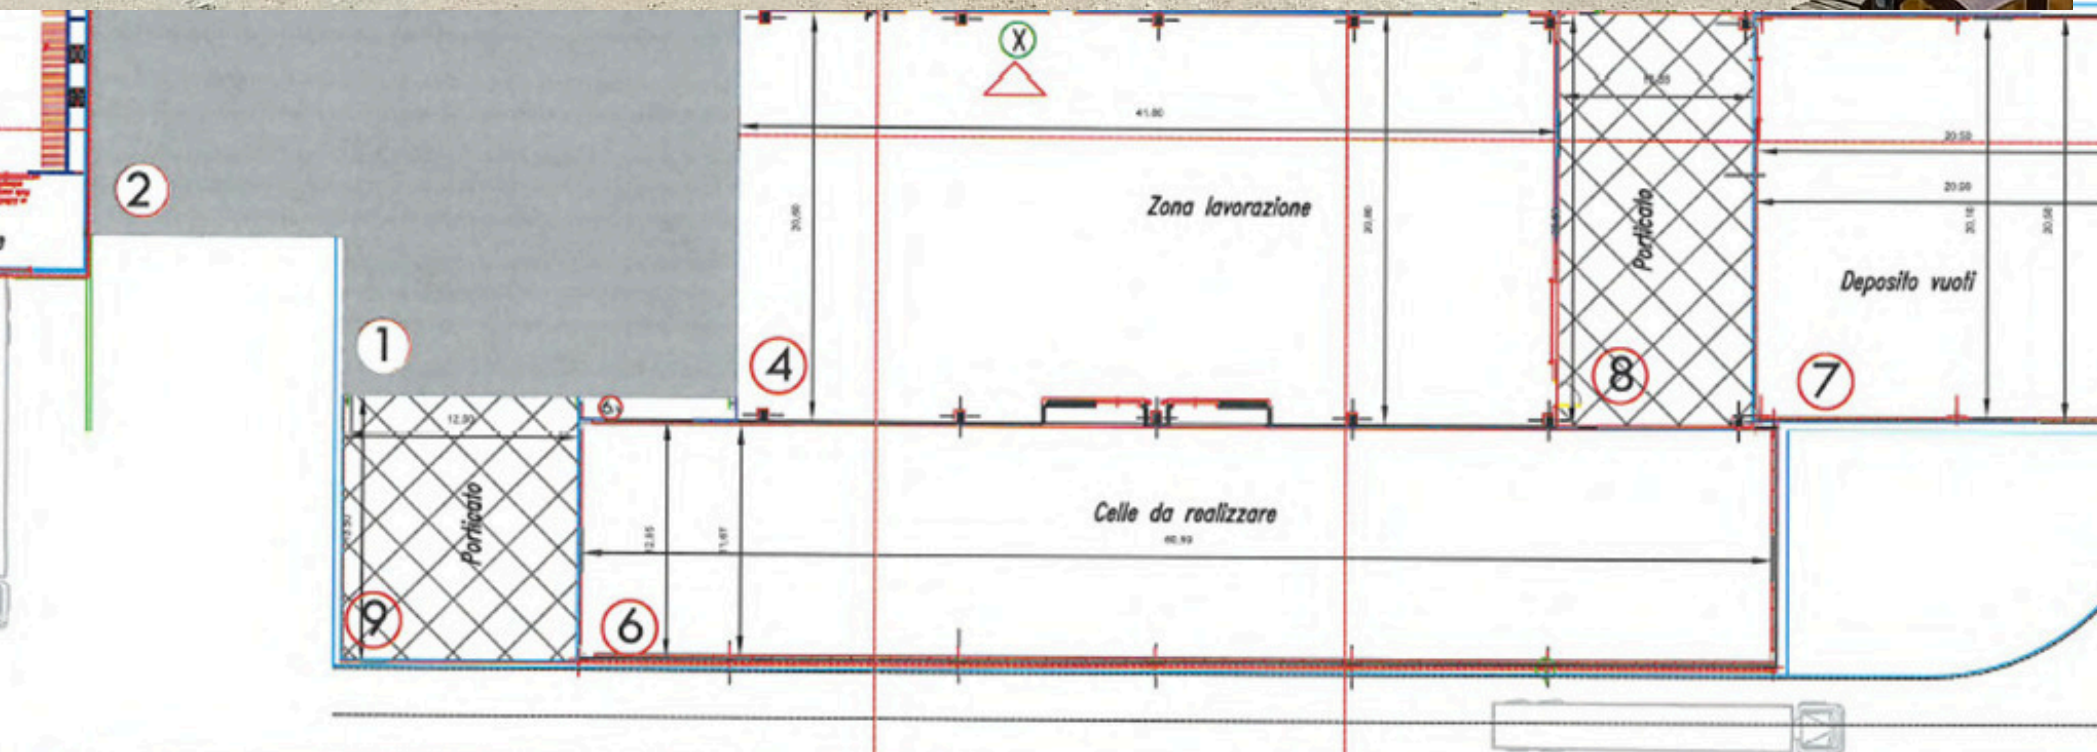

from **2023 AVAILABLE**  
A purchased **HEAT  
SEALING MACHINE-  
ULMA BRAND** and we  
can offer square or  
rectangular punnet  
heat-sealed

we have developed a **project to expand the existing warehouse** and by April 2025 **the second cold storage room and the portico** will be built .  
(points 3 and 9).

**The end of the project will happen in 2026** (points 4, 5, 6, 7 and 8) which will bring us to 1600m2 of cold storage, 2000m2 of processing room, 76 workstations, 200m2 of offices and services.
